Comments:**Coaching Models in the Social Sciences**

1. Well presented & informative
2. Really like how it was taught without over teaching it with ppts., dumb group activities etc. This was less like a workshop and more like a friendly conversation. And keep the stories coming...
3. Very informative & organized
4. I learned that peer building is important in order to create change and will enhance student understanding and learning.
5. Great Start
6. Need a "stained glass" class-Very informative and enjoyable
7. Tour of the campus was great, the buildings are beautiful and students work was interesting. Workshop on coaching models was a good learning experience.
8. Very well presented and informative.
9. Excellent information-delivered with solid background-well prepared.

Reading in the Social Science Classroom

1. Wonderful
2. Fascinating-enjoyed the history of reading-wealth of information.
3. Good insight into some complex issues.
4. Good learning experiences as how students observe letters and words.
5. Wonderful ideas! Useful information!
6. Very Good!
7. Power point great integration with understanding.
8. Excellent reading strategies and ways of understanding reality as an "Art" or "Science".
9. Very illuminating.
10. Most of the information presented was a review. However, it was a good, quick refresher.

TriAd and Textbook for Social Sciences

1. Power points will be great to use with our willing teachers when introducing the Democracy Lab.
2. Excellent reading techniques to enhance reading skills from decoding all the way through comprehension and summarization!
3. Great information to use with my class.
4. Excellent strategy for trying with the students when starting a new unit.
5. The most useful information so far. I need nuts and bolts!!
6. Love TriAd! I will for sure use that information in my classroom.
7. Very useful to introduce new topics and concepts.
8. Outstanding strategy I will definitely be using this lesson.
9. I have been doing this a bit differently. Would like to try it again using this format.

US Government, Civics, & Economics

1. Needed a little more details on how to teach the specific contents.
2. The fundamental concept idea is very helpful to me to teach 3 new content areas and not go insane.
3. Interesting
4. Great side line comments and presentation of material.
5. Shane was interesting, motivating and fun in his presentation. I learned a lot about making connections between powerful concepts and real world tools.

6 Processes Literacy: Alternative Assessment

1. Awesome
2. Very useful

Primary Sources in Am & Wrld History Classrooms

1. Interesting workshop and helpful ideas
2. Fascinating history of early settlements in the new world.
3. Love the food concept, still a little lost with implementing journalism. Can you send the lesson plan power point?
4. Many interesting facts given.
5. I like the food idea, the maps were fun.

Experiential Learning: Classroom Without Walls

1. Great fieldtrip to Citrus Tower!
2. Excellent means of learning outside the classroom.
3. Interesting
4. Good field trip to see how the area has changed.
5. Getting outside wonderful, seeing the land formation and historical sight was great! Very informational!

Executive Function Understanding Learning

1. Great information.
2. Please e-mail me the executive function handouts-hbuonpastore@gladesschools.org
3. Please send the hand outs electronically-silverd@highlands.k12.fl.us
4. Excellent.
5. Excellent presentation of information.
6. Very organized and informative.
7. Well organized and simple teaching strategies!! Would like overhead sheets emailed to certifiedwon@yahoo.com or seasern@highlands.k12.fl.us
8. Love the practicality.

Differentiated Instruction: Social Sciences

1. Awesome Enthusiasm!! Would like e-mail of all overhead-certifiedwon@yahoo.com or seasern@highlands.k12.fl.us
2. Very insightful, useful information.
3. Excellent workshop and really useful info.
4. Very helpful in teaching the different levels of students.
5. Excellent ideas that make me more aware of students needs and how to apply strategies to assist these students.
6. Good tips for teaching LD students, great examples.

Research in SS: Assistive Technology & the Internet

1. Interesting program-liked hands on aspect.
2. What sites were helpful and interesting.
3. Great information.
4. Excellent Ideas.
5. Very useful-I have to find out if our school has any of this stuff.
- 6.

Writing Our Way Through History

1. Great examples connecting to content
2. Great ideas!
3. Very interesting ideas. I like the graphic organizers for the newspaper.
4. Great ideas!

Teaching Geography through Archaeology

1. While the walking tour of site was excellent (very informative) the actual "dig"- in the heat-may be more of a winter months activity.
2. Entirely too hot outside to be doing a activity of this type.
3. It was good to get outside even if it was "Hot".
4. A good hands on learning experience and this field trip would be more enjoyable when the weather is cooler.
5. For a person who lives in air conditioning it was difficult to enjoy the experience in that heat. A list of what to wear/bring prior to arriving would be helpful.

6. The professor was wonderful and accommodating. Please do not schedule fieldtrips like this in 100 degree weather. It was a great learning experience but expecting students to do manual labor, then to walk around for 45 minutes plus in stifling weather is really illogical. I was weak, hot to the point where I couldn't stand. This could have been dangerous to my health, this trip in cool weather makes more sense.
7. It was hot & humid a bit but we learned.
8. Great activity, wrong time of year.
9. Great, Wonderful and Fantastic!!
10. Too hot!

Building a Social Science Classroom Library

1. Needed more time to shop-I felt rushed.
2. Again, Excellent nuts & bolts. You should probably add a step by step tutorial on how to do Amazon.com.
3. Very informative and motivational. Thanks for the gift of books!
4. Loved the ideas, Beacon is great at meeting our needs.
5. I liked this session and thank you so much for the money to by classroom materials.
6. Thank you for the \$125 for out classroom box.
7. Thanks for the spending spree.

Putting the Pieces Together: What We Learned

1. Thank you for the wonderful experience!
2. Excellent wrap up.
3. Excellent Feedback
4. Super info given to help our low performing kids. Am coming away with a wealth of ideas! The only day I would change would be the archealogy Day. See reflection journal for reasons why. Loved the week.
