

## **March 31<sup>st</sup> —Heartland Education Consortium**

**1096 US Highway 27 North in Lake Placid, Florida**

**Science-Math-Master (SM<sup>2</sup>)** provides professional development to teachers, upgrading their skills in Biology and Geometry and boosting the performance of high school students who must master biology and geometry to succeed in school and beyond. In partnership with the Florida Department of Education, The University of Tampa is developing and delivering classroom sessions and an on-line system for teachers statewide.

Join us on March 31<sup>st</sup> at The Heartland Education Consortium to focus on:

- Expanding teachers' biology and geometry content and instructional skills;
- Demonstrating effective tactics and techniques that address the new Next-Generation Sunshine State Standards for biology and geometry; and
- Implementing on-line tools that teachers and students can use statewide.

**Geometry Session: 9 AM—Noon**

**Biology Session: 1 PM—4 PM**

**\$100 Stipend Provided for Attending**

**Mileage Reimbursement for Travel over 50 miles**

## **Additional Information**

**Heartland Educational Consortium (HEC) is located at 1096 US Highway 27 North in Lake Placid, Florida.**

### **Approaching from north of Lake Placid:**

HEC is located in Lake Placid, which is south of Avon Park and Sebring. Travel to US Highway 27 and take US Highway 27 South. HEC is on the north side of Lake Placid, on the right side, alongside and behind a Citgo service station. It is prior to a railroad overpass and the town of Lake Placid. Ask at the main HEC office, 1096, for directions to the office or workshop you are seeking.

### **Approaching from south of Lake Placid:**

Travel to US Highway 27 and take US Highway 27 North, driving through Lake Placid. HEC is on the left side just after a railroad overpass. Turn left at Lake June Road and then turn immediately right, behind a Citgo service station and into the HEC parking lot. Ask at the main HEC office, 1096, for directions to the office or workshop you are seeking.

Phone number for the main office is 863.531.0444 X200
